

PROCUREMENT

Conference re-endorses the 2003 Conference decision moved by Andrew Ferguson and seconded by Barry Tubner with respect to the State Government Procurement Policy in the Industry and Infrastructure Development Report.

Further, Conference expresses its dismay at the unwillingness and inability of the State Government to implement the 2003 resolution.

Accordingly, Conference calls on the State Government to take steps to implement 2003 resolution. Further, in light of the Federal Government industrial relations agenda, the State Government should ensure that all future procurement contracts must only be with companies that: -

- exclude the use of AWA's,
- have offered employees a collective agreement,
- meet ILO labour standards.

Further that this ALP policy extends to all State Government Departments, Statutory Authorities, State owned corporations and Government trading enterprises.

Moved:

Seconded:
